

TASKI®

Tapi Shampoo

C2c

Carpet Shampoo

Description

Carpet shampoo for the intermediate cleaning of all types of carpet and upholstery. Incorporates Odour Neutralising Technology (ONT) for effective malodour neutralisation and long lasting apple fragrance.

Features

- Special combination of effective high foaming surfactants.
- Residues are easily removed by vacuuming.
- pH neutral.
- Endorsed by the WoolSafe Institute.
- Suitable for dry/wet shampoo, carpet pad method and encapsulation method.
- Incorporates ONT air neutralising technology.
- Reduces house dust mite allergens.

Benefits

- Excellent cleaning performance.
- Reduces re-soiling of the carpet
- Safe to use on any carpet types including wool
- Can be used for dry and wet shampooing as well as for carpet pad method.
- Versatile: one product for all intermediate cleaning including encapsulation cleaning method.
- Neutralises malodour molecules and therefore enhances the perfume effect.
- Tested by independent laboratories for allergen reduction.

Application areas

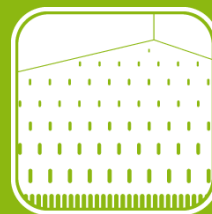

- Hospitality
- Lodging
- Healthcare

Carpet Shampoo

Directions for use

Dry foam & Wet shampoo method: 300ml for 10L of water (1:33). Increase to 1000ml (1:10) for heavy soiling

Carpet pad method: 200ml for 10L of water (1:50)

Encapsulation method : 800ml for 10L of water (1:12.5)

1. Dry foam method:

1. Vacuum carpet and remove spots with TASKI® General Purpose Spotter.
2. Using a single disc machine with foam generator and dry foam shampoo brush, dose the product into the full water tank.
3. Adjust foam generator to produce the foam in required dryness and shampoo the carpet.
4. Lift the carpet pile with a carpet brush while still damp to accelerate drying.
5. Allow the treated carpet to dry, then thoroughly brush vacuum to remove the crystallised shampoo residues.
6. Shampoo upholstery with the hand brush, allow to dry and thoroughly vacuum.

Recommended TASKI® machines and accessories:

TASKI® Ergodisc 165 with foam generator and dry shampoo brush

2. Wet shampooing:

1. Using a single disc machine, tank and wet shampoo brush, release product directly on the floor and shampoo the carpet immediately.
2. Lift the carpet pile with a carpet brush while still damp to accelerate drying.
3. Allow the treated carpet to dry, then thoroughly brush vacuum to remove the crystallised shampoo residues.
4. Shampoo upholstery with the hand brush, allow to dry and thoroughly vacuum.

Recommended TASKI® machines and accessories:

TASKI® Ergodisc 165 with water tank, dispensing unit and wet shampoo brush

3. Carpet pad method:

1. Using a single disc machine and a carpet pad, spray product sparingly onto the carpet and the carpet pad.
2. Work all areas systematically in overlapping passes.
3. Change or turn carpet pad when saturated with dirt.

Recommended TASKI® machines and accessories:

TASKI® Ergodisc 165 with pad drive disc

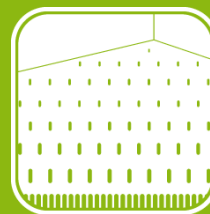

4. Encapsulation method:

1. Dilute the product with water in the encapsulation cleaner.
2. Press the proper Encapsulation settings on the machine to begin the encapsulation procedure.
3. Immediately begin to walk backwards at a slow walking speed, moving the machine over the carpet. Overlap slightly with each pass.
4. Allow carpet to dry, then vacuum .
 - This product is also suitable for the Bonnet method.

Recommended TASKI® machines and accessories:

TASKI® Procarpet 45 with encapsulation brush, accessory kit and upholstery nozzle

Important: Test colour fastness and material compatibility in an inconspicuous place before use. Do not refurnish until the carpet is completely dry.
