Fact Sheet

Emmy Concentrated Dish-washing Detergent

6

DESCRIPTION

Emmy is a concentrated dish-washing detergent that cuts through grease and food soils, leaving wares sparkling clean. It does not produce a slippery feel on washed items, thus reducing breakages.

The added emollient helps prevent dermatitis or skin irritation from frequent use.

FEATURES AND BENEFITS

- **High performance biodegradable formula**
Food soils and grease are quickly removed leaving wares spotlessly clean. Glasses come out sparkling due to **Emmy's** easy rinse formula.
- **Concentrated for economy**
Being highly active, only a small amount is needed to produce excellent results. This leads to fewer drum change-overs and terrific economy.
- **Easy to rinse**
Emmy is designed to give a squeaky clean feel, thus reducing breakages from slippery wares.
- **Added Emollient**
A cosmetic skin conditioner has been added to help prevent skin irritation. This is particularly important for people who spend a lot of time manually washing.
- **Colour coded labelling**
Ensures easy product identification and simplifies training.

DIRECTIONS FOR USE

Add **Emmy** at a rate of 10-20ml per 10L of warm water. When the water becomes excessively soiled, drain and refill the sink. This is far more economical than continuing to add more detergent.

For further information contact your Cleantec Representative.

PACKAGING

12x750mL	P/C 6917991
2x5L	P/C 16334
25 L	P/C 15068

APPEARANCE

Emmy is a green liquid, with a fresh citrus perfume.
