

Digest Solids and Eliminate Odors

DIRECTIONS:

Pour or inject **Trap & Drain** into plumbing, grease traps and septic tanks to break down and digest solids and eliminate odors. **Trap & Drain** also effectively treats solids and odors in lagoons and garbage chutes.

Odor, Grease & Waste Eliminator

Nilozyme Trap & Drain Treatment contains multiple strains of bacteria, which allow for faster breakdown of organic matter. This trap and drain treatment will liquefy and consume complex proteins, cellulose, starches and other organic waste found in grease traps, drain lines, septic tanks and lagoons.

Nilozyme is non-toxic, non-pathogenic, non-corrosive and certified salmonella- and pseudomonas-free.

For best results, use the Pail Top Metering Dispenser. Economical and easy to use, the dispenser reduces labor costs while guaranteeing proper dosage every time! Fits on to 5 gallon pail.

Trap & Drain contains over 200 billion micro-organisms per gallon.

A natural process of digesting organic waste which causes undesirable odors.

Odor Control & Facility Care Solutions

Bio-Enzymatic **Nilozyme** Trap & Drain Treatment and Automatic Dispensing System

NILOZYME	Qt./12 cs.	Gal./4 cs.	5 Gal.	55 Gal.
Original	32-ZNM	128-ZNM	130-ZNM	55-ZNM
NILOZYME AUTOMATIC DISPENSER				NSP 1733

Suggested Uses and Directions:

APPLICATIONS	PROBLEMS	DILUTION	RECOMMENDATIONS
Kitchen, Laundry, Bathroom Drains	Solids and odors	Straight	Pour or inject 3-6 oz. of Trap & Drain into drain twice weekly.
Grease Traps	Solids and odors	Straight	Pour or inject 18 oz. of Trap & Drain daily for large volume restaurants (fast food). Use 8-10 oz. daily for small/medium volume.
Septic Tanks	Solids and odors	Straight	For initial treatment, pour or inject 1 quart of Trap & Drain for each 500 gallon capacity. Thereafter, add 16 oz. for each 500 gallon capacity once a week.
Lagoons	Solids and odors	Straight	Add 5 gallons of Trap & Drain per acre surface for initial treatment. Thereafter, use 2 gallons per acre surface once a week.
Garbage Chutes	All odors	1:4	Mix 4 oz. Trap & Drain with 16 oz. of water. Pour, inject or spray into chutes or dumpsters daily.

Nilodor's Auto Dose dispenser utilizes the flexible programming capabilities which allows the user to dose drains Nilozyme at the appropriate times of the day. An easily programmed timer turns the pump on and off to ensure the regular dosing of Nilozyme.

- Corrosion resistant cabinet fitted to pail or wall for demanding environments.
- Easy to program timer with pin lockout for security.
- During normal operation, the timer runs on the same power source as the pump, simplifying system maintenance (only one set of batteries to replace).
- Internal backup battery in timer maintains program even when main power source is disconnected or inoperative.
- Automatic battery-life monitoring technology ensures dosing accuracy throughout life of battery.
- No tools required for maintenance of pump assembly.
- Low battery indicator.

Batteries required to run the units are not included. Models run on eight D-size batteries (alkaline batteries suggested).

CAUTION: KEEP OUT OF THE REACH OF CHILDREN. For Professional Use Only. Not for internal consumption. If product is ingested, induce vomiting and consult physician. If contact occurs with skin, wash with soap and water. If the product comes in contact with eyes, flush with copious amounts of water. If any irritation persists, contact physician. For additional information/precautions refer to material safety data sheet or product label.
