

CARPET EXTRACTOR

FOR ALL TYPES OF
CARPET & UPHOLSTERY

“PRO BLUE” IS A NEW GENERATION CLEANING RANGE FORMULATED WITH BIOLOGICAL ACTIVES SUCH AS PRO-ACTIVE BACTERIA AND ENZYMES DERIVED FROM BACTERIA

PRO BLUE CARPET EXTRACTOR is a ‘probiotic cleaner’ formulated with bacteria to provide enhanced cleaning power that keeps working long after you put away your cleaning equipment. Quick drying, low foaming and no need to rinse.

PRO BLUE CARPET EXTRACTOR is highly effective and environmentally responsible. The naturally occurring microbes prevent the growth of odour-producing bacteria, helping you to manage odours and deposit build ups in carpets and fabrics.

In carpets and upholstery, most soil and deposits accumulate deep in the fibres and underlay where it can’t easily be cleaned. Extracting with detergent only cleans at the exposed surfaces and misses the inground dirt and protein based soils. Routine cleaning may not be able to remove proteins, greases and oils from the carpet and underlay, instead spreading them over the large surface area of the fibres.

As the grease and soil are removed from the carpet, the colour of the carpet may lighten, visually demonstrating PRO BLUE CARPET EXTRACTOR really is working.

PRO BLUE CARPET EXTRACTOR IS

- ✓ Readily biodegradable
- ✓ Charged with pro-active bacteria
- ✓ Keeps working long after you put your cleaning equipment away
- ✓ Eliminates odours - removes the cause of odours
- ✓ Septic safe - designed to be used in conventional septic, waste water treatment plants and grey water systems
- ✓ Grey water safe - breaks down so that it is safe for the garden
- ✓ User friendly - no corrosives
- ✓ Non-poison, non-DG labelling
- ✓ Phosphate free
- ✓ Low VOC (Volatile Organic Carbon <1.0%)
- ✓ Loaded with aromatic fragrance
- ✓ Value for money - lasts for weeks
- ✓ Concentrated formulation
- ✓ A unique blend of “green” surfactants, scale inhibitors and live bacteria endospores for optimum results.
- ✓ Neutral pH and safe to use on all wooden and synthetic carpets and fabrics.

DIRECTIONS FOR USE

CARPET CLEANING

1 part PRO BLUE CARPET EXTRACTOR to 200 parts water (50ml per 10L water in a carpet extractor holding tank or sprayer)

Dry vacuum the carpet or fabric thoroughly to remove loose dirt

Spray carpet or fabric with the selected dilution of "PRO BLUE CARPET EXTRACTOR" and allow 10-15 minutes to penetrate

Use extraction machine with cold to warm water to rinse carpet or fabric thoroughly

Take care that area to be cleaned is completely pre-sprayed otherwise some blotching could occur

1 litre of "PRO BLUE CARPET EXTRACTOR" at normal dilution should cover approximately 100 – 200 m² of carpet

BIODEGRADABILITY

The surfactants used in PRO BLUE CARPET EXTRACTOR are readily biodegradable according to Australian Standard AS 4351.

HEALTH & SAFETY

- NOT classified as Dangerous Goods, according to the ADG Code.
- NOT classified as a scheduled poison, according to the SUSMP.
