

S1

SANITISER

DESCRIPTION

Hanleys new Solution range is a break with the past and a shift towards a cleaner, greener and more cost effective future. The Solutions range has been developed using the latest cutting edge technologies sourced both in Australia and internationally. Solutions is a response to industry demands for a simple, identifiable, safe and controllable range of cleaning products that perform to the exacting specifications placed on them by the environment and government regulators.

FEATURES AND BENEFITS

The Solutions System is a concentrated cleaning system providing cleaning products for floor, bathroom, glass, air fresheners and multi - purpose areas.

The Solutions System delivers radiant results at the lowest possible cost and provides the end user with a centralised location for storing, diluting and dispensing premium cleaners.

The Solutions System gives the end user a multiple product dispenser, greater reliability and durability and minimal space needed for installation. The Solutions System is quick and easy to install - no plumbing or backflow issues.

Quickly and accurately delivering proper dilution of product every time, eliminating manual mixing of chemicals the Solutions System fills both mop buckets and spray bottles.

PACKAGING

Code: SOLS1PK
1 x 2lt Bottle

DIRECTIONS FOR USE

S1 is a multifaceted food grade sanitiser. S1 has been formulated to provide excellent bacterial properties aimed at pathenogenic food origin bacteria such as eccoli and salmonella.

Place 1 pump of S1 in bottle and fill to the line with water.

As a soak:

When soaking equipment parts, utensils and filters. Place 2 pumps into 1 litre of water and soak for at least 5 minutes.

As a food contact surface residual sanitiser:

Place 1 pump into a dispenser bottle and fill to the 550ml mark with potable water. Spray evenly over entire surface and do not rinse.

As a hard surface sanitiser:

Place 2 pumps to dispenser bottle and fill to the 550ml mark with potable water.

Bucket Fill:

Place 1 pump to mop bucket and fill with 5 litres of water.

Consult Material Safety Data Sheet before opening container.

SANITISER

CHEMICAL PROPERTIES

SPECIFICATION	TYPICAL VALUES
Appearance	Clear Yellow Liquid
Odour	Nil
Alkalinity	None
pH	8.0 - 10.0
Phosphates	None Present
Biodegradability	Biodegradable
Solubility	Complete in Water

WORKPLACE HEALTH AND SAFETY

Undiluted product is classified as "Xi – IRRITANT" by Safe Work Australia. Upon dilution with an equal volume of water, ie 1 part S1 Sanitiser with 1 part water, the resulting solution is no longer classified as hazardous according to the criteria of Safe Work Australia. Typical use dilutions are far greater.

Consult Material Safety Data Sheet before opening container.

HAND & SKIN CARE

After washing, rinse and dry hands thoroughly. People with sensitive skin should avoid prolonged contact with the washing solutions or should wear protective gloves.

RISK

Irritating to eyes and skin

SAFETY

Keep out of reach of children.

PACKAGING

Code: SOLS1PK

1 x 2lt Bottle

FIRST AID

If poisoning occurs contact a doctor or Poisons Information Centre (phone 131126).

If swallowed do NOT induce vomiting. Give a glass of water to drink. Get to doctor or hospital quickly. In case of contact with skin wash thoroughly with water.

If in eye/s, hold eye open and flood with water for 15 minutes. Contact a doctor or hospital if symptoms persist.

Storage and Handling: Store according to Federal, State or Local regulations for a Schedule 5 liquid.

Consult Material Safety Data Sheet before opening container.
