Indoor air quality

Rocket Vac XP **+PLUS**

Rotobac

The **Rocket Vac XP +PLUS** is a high capacity 5L dry, low foot print, commercial vacuum cleaner, designed for cleaners needing added comfort for extended vacuuming shifts. It is the lightest vacuum in the range, with the lowest noise, and highest level of HEPA 10 filtration.

- **Increased Operator's comfort** thanks to its ergonomic shoulder and elasticized adjustable waist belt for ideal comfort that fit perfectly well to the operator's body.

- **IRAM Filtration Technology.** 3 stage progressive filtration system using paper, BFT cloth and VFD panel filters: or 99.97% efficient HEPA 10 Filter.

+PLUS features

360 degrees hose joint rotation for increased comfort and reduced fatigue

Clear lens to easily check dust levels

Magnetic latch and lid design enable quick & easy changes for left or right hand operation

High Efficiency Motor providing unsurpassed airflow and suction
